Subject: Full-year Transfers to UC and CSU, 2013-14 to 2016-17

This report reflects data for full-year transfers to the University of California and California State University between 2014-15 and 2016-17. Since 2015-16 is the most recent data from the state Chancellor's Office, in-state private institutions and out-of-state institutions data reflects the most recent three years, 2013-14 to 2015-16.

Transfers to University of California (UC)

Admission & Enrollment

- In 2016-17, the number of De Anza students who applied to a UC is 1,620
- 75% of De Anza students who applied to a UC were admitted, up from 69% the prior year
- 77% of De Anza students who were admitted to a UC subsequently enrolled, up from 76% the prior year

Table 1: De Anza – UC Applicants: Total Admitted and Total Enrolled, 2016-17

No. of Applicants	Total Admitted	% of Applicants Admitted	Total Enrolled	% of Admitted that Enrolled
1,620	1,217	75%	940	77%

Transfers by UC Campus

- Percent change year over year
 - Between 2015-16 and 2016-17, transfers to UC increased by 166 students or 21%
 - Between 2013-14 and 2014-15, transfers to UC increased by 8% (*For reference, transfers to UC in 2013-14 totaled 756 students*)
 - Between 2014-15 and 2015-16, transfers to UC decreased by 5%
- Three-year change
 - Over the past three years, 2014-15 to 2016-17, transfers to UC increased by 15%
 - The UC campuses that saw the largest change in transfer increases or decreases were:
 - UC Irvine (increased by 33%)
 - UC Riverside (decreased by 30%)
 - UC San Diego (increased by 27%)
- In 2016-17, the UC campuses with the highest number of De Anza transferred students included:
 - UC Davis (25% of all transfers)
 - UC San Diego (22% of all transfers)
 - UC Berkeley (16% of all transfers)

*Starting in 2014-15, schools with fewer than five applicants and fewer than three admits or enrollees do not have data and are denoted as "NA." Therefore, summing the student count by campus

Transfers by Ethnicity

Note: Percent change is not provided in table 4 since the University of California does not provide data on transfer by ethnicity (i.e. disaggregate level) when the number of applicants, admits and enrollees by ethnicity is fewer than five applicants.

- In 2016-17, Asian and international students accounted for the majority of De Anza students who applied to a UC, 44% and 30%, respectively
 - Nearly 72% or more of domestic ethnicity unknown, international and Asian students who applied to a UC were admitted; and at least 78% of these admitted students enrolled
 - At least 60% of American Indian, Latino/a and White students who applied to a UC were admitted; and at least 63% of these admitted students enrolled
 - 68% of African American students who applied to a UC were admitted, and 76% of them enrolled

Transfers to California State University (CSU)

Transfers by CSU Campus

- Percent change year over year
 - In 2016-17, transfers to CSU resulted in 143 more students compared to the previous year, or an 11% increase in transfer
 - Between 2013-14 and 2014-15, transfers to CSU decreased by 61 students or 4% (*For reference, transfers to CSU in 2013-14 totaled 1,396 students*)
 - Between 2014-15 and 2015-16, transfers to CSU decreased by 30 students or 2%
- In 2016-17, the CSU campuses with the highest number of De Anza transfer students are San Jose State (816), San Francisco State (180) and East Bay (163); and this is consistent with previous yearly trend
- Over the past three years, 2014-15 to 2016-17, overall transfers to CSU increased by 8%

Transfers by Ethnicity

- In 2016-17, Asian (43%) and Latino/a (19%) students comprised more than half of all racial/ethnic subgroups who transferred to a CSU; and this trend is consistent with previous yearly trends.
- Over the past three years, 2014-15 to 2016-17, the largest gains in transfer to a CSU is observed among De Anza’s Non-Resident Alien students and Latino/a students with a 15% increase in CSU transfers over the three-year period.

Note: Other/Unknown includes American Indian, two or more races and decline to state race/ethnicity.

Transfers to In-State Private and Out-of-State Institutions

Note: 2015-16 is the most recent data from the state Chancellor’s Office.

- In 2015-16, among De Anza students who transferred to an in-state private or out-of-state institution, the majority of them opted for an out-of-state institution (64%).
- Over the past three years, 2013-14 to 2015-16, transfers to in-state private institutions declined by 20%, whereas transfers to out-of-state institutions declined by 7%.
